

EMBRACE

Conceived as a cocoon, this bed is a sanctuary that envelops the body and soothes the senses. Its sculptural form surrounds the user, from the headboard to the foot of the bed, creating a protective, intimate, and serene space. Its generous, rounded volumes evoke the softness of large cushions, inviting one to sink in and surrender. Dressed in deep velvet, the bed radiates warmth and comforting sensuality — a deliberate contrast to the coolness of great cities and the outside world. This tactile richness converses with a bed base in natural stone, such as marble, whose cold surface introduces a subtle and refined tension. The alliance of voluptuous velvet and mineral material gives Embrace a unique balance — at once luxurious, sensual, and distinctly contemporary. But Embrace is more than a bed: it is a world of its own, a refuge to 'slow down,' recentre, or simply surrender to comfort. A shelter for rainy days, a space to read, dream, or share intimate moments. It welcomes its user, envelops and protects them until it becomes a true extension of body and mind. Through its enveloping lines and subtle play of materials, Embrace celebrates comfort, craftsmanship, and the beauty of regained tranquility.
