

## DUNE

Contemporary sanctuary – like a dune in the middle of the desert, protecting you from the rhythm of the fast-paced, cosmopolitan everyday life. Its soft, light beige surface, made of luxurious micro-velvet, wraps around the form of the bed like sand shaping the natural lines of the landscape. Subtle folds create a visual cocoon, a place where one can hide, breathe, and find peace. This is a design where softness meets precision, and luxury becomes an experience rather than a decoration. *Dune* is an oasis in the urban world – a luxurious, cosmopolitan cocoon, designed to bring silence where it is most needed.

Micro-velvet fabric with contrasting  
wear marks and pronounced creasing

Richly gathered folds in the upholstery  
fabric in a light, sandy shade
